So Farmers and Others. HOMES FOR THE INDUSTRIOUS IN THE GARDEN STATE OF THE WEST.

THE ILLINOIS CENTRAL RAILROAD COMPANY HAVE FOR SALE 1,900 ACRES OF RICH FARM LANDS, IN TRACTS OF FORTY ACRES AND UPWARD, ON LONG CREDIT AND AT LOW PRICES.

MECHANICS, FARMERS AND WORKINGMEN. The attention of the enterprising and industrious portion of the country is directed to the following statements and liberal inducements offered them by the ILLINOIS CENTRAL RAILROAD COMPANY.

LANDS OF ILLINOIS. No State in the Valley of the Mississippi offers so great an inducement to the settler as the State of Illinois. There is no portion of the world where all the conditions of climate and soil so admirably combine to produce those two great staples, corn and wheat, as the prairie of Illinois.

RICH ROLLING PRAIRIE LANDS. The deep rich loam of the prairie is cultivated with such success that the farmer of the Eastern and Middle States is moving to Illinois in great numbers. The area of tillable soil is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

EASTERN AND SOUTHERN MARKETS. These lands are contiguous to a Railroad 700 miles in length which connects with other roads, and navigable lakes and rivers, thus affording an unobstructed communication with the Eastern and Southern markets.

APPLICATION OF CAPITAL. Thus far capital and labor have been applied to developing the rich resources of the State in Coal and Iron and almost exclusively to the iron and steel industry. There is no doubt that both these industries are profitable, but they will follow at an early day in Illinois; and in the course of the next ten years the natural gas and petroleum of the State will be sold for at least FIVE HUNDRED THOUSAND PEOPLE will be employed in the State of Illinois in the various manufacturing enterprises.

RAILROAD SYSTEM OF ILLINOIS. Over \$100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the location of several of these works is a valuable public fund in lands, go to develop the State resources, the taxes are light, and must, consequently, every day decrease.

THE STATE DEBT. The State Debt is only \$10,000,000, and while the last three years it has been reduced \$1,000,000, and we may reasonably expect that in ten years it will be entirely extinguished.

PRESENT POPULATION. The State is rapidly filling up with population; 869,000 persons having been added since 1850, making the present population 1,710,000 persons, and the increase of population is now at the rate of 100,000 persons per annum.

AGRICULTURAL PRODUCTS. The agricultural products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,900,000 tons. The wheat crop of 1860 represented 1,400,000 bushels, while the corn crop yielded not less than 140,000,000 bushels.

FERTILITY OF SOIL. Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of a deep, rich loam, the fertility of which is unsurpassed by any soil in the world.

TO ACTUAL CULTIVATORS. Since 1854 the Company have sold 1,300,000 acres. They sell only to actual cultivators and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of \$80,000,000. In 1850, the population of the forty-nine counties through which it passes was only 335,508, since which, 479,293 have been added, making the whole population 814,801—a gain of 143 per cent.

EVIDENCES OF PROSPERITY. As an evidence of the thrift of the people, it may be stated that 600,000 tons of freight, including 8,000,000 bushels of grain, 100,000 barrels of flour, were forwarded over the line last year.

EDUCATION. Mechanics and Working Men will find the Free School system encouraged, and the State will aid in the support of the schools. Their children can live in sight of the Church and School-house, and grow up with the prosperity of the leading State in the great West.

PRICES AND TERMS OF PAYMENT. The prices of these lands vary from \$6 to \$20 per acre, according to location, quality, and size. The price is payable in four, six, and seven years from date of sale; the contract stipulating that one-fourth of the tract purchased shall be fenced and cultivated each year, and that the balance of the purchase price shall be paid at the end of five years, one-third shall be paid in cash, and the balance in installments.

AGRICULTURAL AND HORTICULTURAL IMPLEMENTS. ALL GOODS WARRANTED AS REPRESENTED. W. W. BROWN & CO., No. 90 Courtland-st., New-York City.

80,000 BARRELS OF POUDETTE. Made by THE LONI MANUFACTURING COMPANY. For sale in lots to suit purchasers. This powder is superior to all other brands in the market; it is pure, and will burn in any kind of weather, and will burn in any kind of weather, and will burn in any kind of weather.

WANTED TO HIRE.—With privilege of purchase, about 50 acres of LAND, on the north side of Long Island, with view of the Sound, in a healthy location. Must be in good order, and have good buildings. Apply to FIELD & McLELLAN, Auctioneers, No. 139 Nassau-st.

WANTED, in City or Country, and if a country place, a small Farm attached preferred.—An educated English family of respectability, of certain moderate income, with furniture, and little capital, would like to TAKE CHARGE of a PROPERTY for a family, situated
